

MILITARY TRAINING AND EDUCATION TRANSFER CREDIT POLICY

Flagler College recognizes the value of military education and training and uses American Council on Education (ACE) recommendations to assess potential transfer credit for active duty and veteran students.

The maximum possible transfer credit for any combination of military training, education, and service is 19 semester hours. (*See exception below*)

- Up to 15 hours of academic credit may be awarded and applied to general education or elective requirements.
- With Department Chair concurrence, academic credit may be applied toward courses in the major field of study.
- Four (4) hours of credit for honorable military service may be awarded and applied to elective requirements.

Credit for military training and education is determined by Registrar review of documents, to include the following:

- Joint Service Transcript
- Certificate of Release or Discharge from Active Duty (Form DD-214)
- Other service school or military academy transcripts.

For the Public Administration program only, a maximum of 15 academic and service-credit hours may be applied to general education or elective course requirements. No transfer credit may be applied to courses in this major.

Post-9/11 GI Bill, Yellow Ribbon Program, and Tuition Assistance:

- Flagler College's annual tuition is below the Post-9/11 GI Bill national maximum for private colleges, so Yellow Ribbon Program is not necessary.
- Tuition costs are covered by 100% Post-9/11 GI Bill benefits, up to the maximum 36 months of entitlement.
- VA School Certifying Official onsite.
- Active duty and National Guard may use Tuition Assistance and EDD benefits.
