## EDUCATION

**Flagler College**, St. Augustine, FL May 20xx  
Bachelor of Arts in Coastal Environmental Science  
GPA: 3.8/4.0  
Dean's List 20xx-20xx

## PUBLISHED WORK

Paper published on research findings by Dr. A. Science found at: *Biology, A.A. (2010). Proteolytic cleavage of versican during limb joint development. The Anatomical Record, 293: 208-214.*

## PROFESSIONAL EXPERIENCE

**Natural Sciences Department, Flagler College** 20xx – Present

### Research Assistant

- Conducted five experiments on population studies in genetics; researched the effects that versican protein plays in joint development using Invivo manipulations on joints of chicken embryo to discern development patterns
- Performed 20 dissections to complete correct disease identifications; human cadaver, pig, sheep lung, & eye
- Input 100+ data points into excel and access databases, analyzed versican protein study data with 100% accuracy, resulting in a confirmed hypothesis
- Performed data collection and record management to maintain the quality, accuracy, integrity and confidentiality of all hard-copy and electronic data for research projects; resulted in creation of data security and release policies

**Flagler Hospital, St. Augustine, FL** 20xx – Present

### Volunteer

- Over 400 hours of volunteer experience working in surgical patient transport, feeding assistance in spinal cord unit, and staffing the front desk
- Shadowed doctors during patient's physical examinations and identified violent crime injuries for hospital records

## LABORATORY SKILLS

Histology and staining  
Alcain blue/ aliz red histochemistry  
Epifluorescence microscopy  
Tissue preparations  
Immunohistochemistry techniques  
Compound microscopes  
Dissection microscopes  
Laboratory etiquette  
Solution preparation

## ACTIVITIES/AWARDS

**Student Government Association**, Flagler College 20xx –20xx

### Treasurer

- Coordinated fall and spring professional speaker series, increased attendance 30% over previous year
