

Flagler College – Domestic Student Health Insurance Solutions

Affordable Care Act (ACA) Plans

Coverage can be purchased through www.Healthcare.gov for ACA compliant health plans during the open enrollment period of November 1 through January 15 or throughout the year if you had a qualifying event that lead to losing your coverage.

Florida Marketplace

www.floridablue.com offers a Florida based marketplace for different health insurance offerings. Students should be sure to review all plan benefits and pricing to ensure they obtain the best coverage for them and their medical needs.

Short Term Health Insurance Market

Pivot Health offers a short-term health insurance market that provides a variety of coverage options for students to purchase. While short-term plans can be more affordable and may meet the needs of some students, there are some limitations as they aren't required to meet all ACA mandates. Please review all benefits and details before enrolling to ensure the coverage meets your specific medical needs. *For student-athletes, this coverage does offer athletic injury coverage, a common exclusion for most short-term plans.
