

FLAGLER COLLEGE BUSINESS ADMINISTRATION PROGRAM

FLAGLER
COLLEGE

THE BEST BUSINESS PLAN IS YOURS.

Launch businesses, solve challenges for industry partners, and graduate with the leadership, strategy, and professional experience employers look for.

MESSAGE FROM THE PROGRAM DIRECTOR

The students who really succeed in our program are the ones who want to be seen. We're small, we're close, and we're involved, and you get known here. The students who go the furthest are the engaged ones: they want to be part of the campus and part of the environment, and they get to know their professors, their program, our advisory board members, and the business community.

That access shows up in specific ways, not just closeness for its own sake. We make sure every student learns how to run a meeting, communicate with people at every level of an organization, and yes, navigate a formal business dinner... skills a syllabus won't teach. Those are the kinds of things that help our graduates stand out long after they've left the classroom.

We'd love to help you build your future. Reach out to our admissions team for next steps.

*Associate Professor &
Department Chair*
