FINANCE PROGRAM

FLAGLER
COLLEGE

SEE OPPORTUNITY IN EVERY NUMBER.

Build the confidence to make smart financial decisions through hands-on investing, market analysis, and professors who know your goals as well as your name.

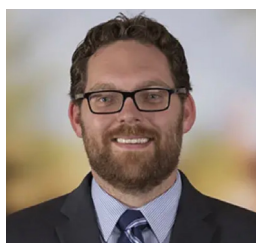

MESSAGE FROM THE PROGRAM COORDINATOR

The students who do best in this program are analytical and naturally drawn to solving problems with numbers. Strong communication and writing matter too. There are group projects and presentations along the way, and those skills count just as much when you go after the job. You also don't have to arrive already set on finance. Plenty of students discover it later and quickly find their place in the program.

At many larger universities, finance programs are designed to weed students out. That's not who we are. If you're willing to work hard and ask for help when you need it, we'll work right alongside you until you succeed.

I'm excited to welcome you! If you have any questions, our admissions team is ready to help.

Dr. Brett Blazeovich
*Assistant Professor &
Finance Program Coordinator*
